

OR-TEC SEPTAGE RECEIVER

A Septage Receiver Bar Screen in a Tank

The Septage Receiver Bar Screen accepts waste directly from the septage hauler. It ensures that the septage entering the plant has been thoroughly screened.

The unit is robust, reliable, easy to operate and maintain and screens to 1/8" (3mm) or 1/4" (6mm) without the use of washwater and brushes....and it will not blind.

The screen is designed to meet US-EPA guidelines for septage of 15,000 mg/L of TSS and 8,000 mg/L of FOG

Construction material

Stainless Steel AISI 304 or AISI 316

- 3mm - 6mm
